Kesandu Uchenyi

Product Manager

ABOUT

A Product Manager with over 4 years of experience in IT and a passion for technology and digital products. Skilled in product discovery, user research, requirements gathering, roadmapping, prioritisation, Agile/Scrum, stakeholder management, and cross-functional collaboration. My full-stack development background in JavaScript, ReactJS, NextJS, NodeJS, MongoDB, Python and Firebase enables me to bridge business needs and technical execution. A strong communicator, collaborative leader and result-driven team player who values feedback and continuous improvement.
